From the General Manager

To all Riverside Country Club Members,

WE NEED YOU! To log onto the Club's website (www.riverside-country-club.com) and update your profile with address, phones, email, and a PICTURE! We really appreciate you doing this.

Have you seen the new additions to the lobby? We now have a beautiful new board with pictures of all our newest members. This is a great way to announce and welcome our newest members to Riverside Country Club. You may have also seen the rolling screen television. We have loaded pictures of members participating in various club activities and events. Just last evening, I saw six members gathered around the TV looking at pictures of their fellow members, fun!

The foundation of private clubs was built upon the concept of membership by invitation only. A group of people with similar interests, demographics, social-economic background came together and formed a club; be it for golf, social, dining, tennis etc... and then they invited people of similar interests to join their club. Unfortunately in this day and age that is not the case for most all clubs; maybe Augusta National but not very many others.

Today's private clubs have to use outreach/marketing to build their membership base. BUT, year over year club after club the number one source of new members is member referral. Our valuable existing members reaching out to acquaintances, business associates, or friends and referring them to Riverside and or bringing them out to see the club. I strongly encourage all of you to be thinking this way when you are talking with people who are not members. We are going to be providing you with tools to assist in the common goal we should all have of growing the membership base of this club.

The evening of January 31st saw a record for the restaurant. Counting to go orders, we served over 290 meals! Why, because you all love the food and service so much you came out in groves? Or was it you had not used your January food minimum? I like to think it was a bit of both. Why do clubs have a food minimum? To promote stable year long consistent quality food and beverage offerings and programs. Yes we have a monthly minimum, but please view this as a way to get together with fellow members or to entertain guests while enjoying your club. I can't think of a better place to sit and relax while our great food and beverage team provides you an exceptional dining experience. DID YOU KNOW, that one time a year you can request that your monthly minimum be rolled into the following month? Simply call the office before the month ends and ask that, for example, your February minimum be rolled into March. This will mean in March your minimum will be whatever you rolled into March plus the March minimum. Come out and enjoy time with your fellow members while enjoying a great dining experience.

Thank you and have a great month; the snow will melt!

Online Statements

You can now view your statements online. You received your last paper statement in early January and moving forward all statements will be available online only. We will only do hard copies if requested.

How to view your statements.

Please go to www.riverside-country-club.com and log into your member account by clicking “login” in the upper right corner.

If you have not logged in before, please register by clicking “register” in the upper right corner.

Once registered, you will receive a confirmation email. It will take 1-2 hours before you can view the online statement module after receiving the confirmation email.

Once you are logged in, look for the tab in the upper right corner, “view statements”.

There are three tabs under “View Statements”:

Account Summary

The current balance and current statement section have not been billed, but you can see where your balance is for the month thus far.

If you click on the current statement, you will be able to see daily transactions and drill down into the chit itself.

The food minimum section shows where you are for the month or year on meeting your food minimum.

Billed statements have the same detail as current statements.

Statement Period

This includes the same detail as the current statement section.

Credit Book

If you have any credit from the golf shop, the balance will show here.

We will also be offering members the ability to pay their bills online. This will be located under “view statements”. Therefore, January will be the last month we will be processing credit cards for you through our auto billing in the accounting office. In February, you will need to login and pay by credit card through the website. The fee will be 2.5% and we do not accept American Express. ACH will still be auto billed through the accounting office. All other methods of payment will stay the same.

If you have any questions on registration, please reach out to Mandy Dredge, Membership and Marketing. If you have any questions on statements, billing, etc., please reach out to Janel Remien, Controller.

Explorers

Have you ever wanted to go hiking, biking, canoe/kayaking, fishing, snow shoeing, cross country skiing (and the list could go on and on) but didn't have anyone to go with or wanted to do it with a group of people you know? How about a special musical or entertainment event, a field to table dinner, a tour of the museum, a brewery, a winery, and more! Here's a chance to help your Club organize these types of activities for you and your fellow members. We are introducing the Riverside Explorers. Please see below a brief explanation of the Explorers.

Mission and Goals

The Explorers provide all Riverside Country Club members an opportunity to join other members in various social, recreational, educational and cultural activities. These activities are suggested, researched, coordinated, and run by Riverside Country Club members. All members of Riverside Country Club are members of the Explorers.

The group meets monthly to review recent events, check on progress of activities in the queue, and discuss potential new activities.

Any Riverside Country Club member may suggest an Explorer event. The normal process is to attend the monthly meeting and present the idea. If it is approved by the members in attendance, a date is selected and arrangements, including writing the announcement, taking reservations, coordinating with the event venue, etc. are made by the person making the suggestion.

The key to the success of the Explorers is a core of members who are willing to make suggestions, take initiative, and follow up. The more people involved, the better. More people means a wider variety of ideas and activities along with more leaders for each specific outing or event.

We have scheduled the kick-off meeting for members who are interested in leading and participating in various off site activities and events for **Thursday Feb 1st at 6:00pm**. Please join us to brainstorm possible activities and events and selecting a small group of members who would be willing to be the leadership. Please RSVP to help facilitate planning.

Cross Country Skiing

Each winter, the following letter is communicated to the membership in various forms regarding the Riverside Country Club cross country ski trail system and the requests I make for the health of the golf course as it pertains to this winter activity. I mention this because I feel we provide a reasonably good cross country skiing experience without the need to go off trail. Please pass this information on to your cross country skiing friends and help us in our efforts to maintain and improve your great club.

The cross country ski season has officially started, so I would like to take this opportunity to pass on a few thoughts on how our members and guests can help us with the maintenance of the trails, and, more importantly, the health of the grass on the golf course.

After a significant snow event, the areas to be addressed are prioritized as follows:

- Club and tennis parking areas
- Club walks
- Paddle courts
- Cross country ski trail system (Depending on the amount of snow, it may take a couple of days to get the trail system groomed and the trail set. Please be patient.)

Trash cans and plastic bags will be located around the trail system. Please use them as much as possible.

The trail system begins and ends at the north end of the club parking lot. This location is the only entrance and exit to the trail system. Please park your vehicles at the north end of the parking lot to begin your activities. In general, this area provides plenty of parking space and room to load and unload your equipment and to let your dogs run around without getting into traffic in the main areas of the club parking.

If you are walking or showshoeing, please stay on the groomed portion of the trail, not on the set tracks for classic cross country skiing.

PLEASE STAY ON THE TRAIL.

The trail system has been routed so as to minimize wear and damage to the grass on the golf course. Ultimately, the golf course is the most important, and valuable, outdoor facility of your club. The isolated compaction of the individual skier will damage the grass, especially the low cut grass on the greens, tees, and fairways. This damage is visible in the spring and will take extra care to repair the damage.

The existing routing provides miles of good, beautiful skiing while minimizing damage to the golf course.

Thank you for your help and understanding.
Have a terrific winter.

Kurt Klonsinski,
Golf Course Superintendent
